Name of Offeror or Contractor:

SECTION A - SUPPLEMENTAL INFORMATION

The purpose of this amendment is as follows:

1. The opening date is extended from the 15th of June 2000 to 30 June 2000.

2. The following clarifications/changes are provided:

a. Page 5 of DFP-388, paragraph 3.3 Material: Delete the 5th sentence and substitute the following: "Materials, fittings and support equipment, used within the interior of the recompression chamber, shall not be made of flammable material."

b. Page 10 of DFP-388, paragraph 3.7.1.2.2.1, Piping Systems: Delete the last four (4) sentences and substitute the following: "All connections between systems mounted to the shelter and systems mounted to the chamber shall be made with flexible hose. The contractor shall refer to Section 4 - Piping Systems of ASME/PVHO-1 for guidance in the design, fabrication, welding, inspection, cleaning, installation, and testing of all piping components. The contractor shall provide certification to ensure that all welding and inspection personnel are qualified to perform the required welds and inspections in accordance with ASME/PVHO-1."

c. Page 10 of DFP-388, paragraph 3.7.1.2.2.2, Pressure Gages: Add the following sentences before the 5th sentence: "The contractor has the option of providing the control station at the end of the recompression chamber or at the side. The preferred location of the control station is at the end of the recompression chamber. Either design is acceptable provided the position and location of the control station does not interfere with personnel traffic within the shelter during operation of the recompression chamber."

Delete the 5th sentence and substitute the following: "If the control station is located at the end of the recompression chamber, the chamber shall have three (3) gages for the inner lock, (IL) (one located near the IL view port and two (2) on the operator's console) and two (2) gages for the outer lock (OL) (both located on the operator's console) to independently monitor the depth."

Add the following sentences after the 5th sentence: "If the control station is located at the side of the recompression chamber, the chamber shall have two (2) gages for the inner lock, (IL) (both located on the operator's console and close to the IL view port) and two (2) gages for the outer lock (OL) (both located on the operator's console) to independently monitor the depth."

d. Page 12 of DFP-388, paragraph 3.7.1.2.2.9, Control Station: Delete the 3rd and the 4th sentences and substitute the following: "The contractor has the option of providing the control station at the end of the recompression chamber or at the side. The preferred location of the control station is at the end of the recompression chamber. Either design is acceptable provided the position and location of the control station does not interfere with personnel traffic within the shelter during operation of the recompression chamber."

e. Page 3 of Instructions to Offerors, paragraph 2.1, Sub-factor 1 - Preliminary Design Package: Delete sub-paragraph B.1., B.2., and B.3 of 2.1 and substitute the following:

B. The overall preliminary design package documentation shall include, but not be limited to the following:

1. Preliminary design, (concept), drawings, equipment layout drawings, electrical schematics and piping diagrams.

2. A Technical information package including, but not limited to, manufacturer's commercial literature, (commercial literature normally furnished by the manufacturer, such as photographs, illustrations, technical descriptions and specifications), of all support equipment and major component parts.

3. Proposed preliminary outline of the recompression chamber operation and maintenance precedures.

3. Potential sources for the ISO Shelters are:

a. Marion Composites
150 Johnston Road
Marion, VA 24354-4330

b. Gichner Systems Group/Gichner Shelter Systems
490 East Locust Street
Dallastown, PA 17313

c. AAR Cadillac Manufacturing

	PIIN/SIIN DAAE20-00-T-0058	MOD/AMD 0008	

Name of Offeror or Contractor:

201 Haynes Street
Cadillac, MI 49601

These are only suggested sources.

4. The following information is incorporated:

Contractors are authorized to obtain test services from a Major Range and Test Facility Base (MRTFB) of the U.S. Army's Test and Evaluation Command (TECOM) as Government Testing Services. Contractor will be responsible to coordinate aspects of the testing with the MRTFB and to directly fund the MRTFB for the cost of these services.

Preliminary cost estimate for test services at Aberdeen Test Center (ATC) may be obtained prior to contract award. To do so, contact Ms. Judy French, at (410)278-4037 or Ms. Diana Reeves, (410)278-1441. ATC attempts to respond to such requests withing 10 working days.

After contract award, the contractor will need to provide a copy of the contract authorizing Army sponsorship, a completed AMC Form 1271, Terms and Conditions for Tests, and the detailed information of testing to be preformed and scheduling required.

NOTE: Payment for services is required prior to any testing.
